STANCE CONTROL™

Up To 35° Flexion

ALL-NEW · SLK 3.0

Confidence with every step.

The Sure Stance knee is the world's first polycentric prosthetic knee to feature weight-activated stance control — engaging up to 35° of flexion for stability on stairs, ramps and uneven ground.

- ✓ Weight-activated stance lock to 35° flexion
- ✓ Polycentric geometry for a natural gait
- ✓ Engineered for everyday independence

DISCOVER THE SLK 3.0

DAWFLEX™

A seamless, natural finish.

DAWflex is a foam cover that delivers a clean, lifelike cosmetic finish with a time-saving quick application — and, unlike other covers, won't create artificial extension assist.

- ✓ Seamless, lifelike appearance
- ✓ Time-saving quick application
- ✓ No artificial extension assist

WHY DAW

Built around the people who wear it.

Original engineering

Patented, in-house designs you won't find anywhere else — including genuine industry firsts.

Patient outcomes

Every product is built around comfort, fit, durability and the freedom to move with confidence.

Practitioner support

Technical resources, fitting guides, manuals and demonstration videos — backed by a team that answers.

DAW's products and support help us deliver life-changing outcomes for our patients. Their innovation genuinely sets them apart.
